Module content

This module aims to equip students with the conceptual and practical skills to enable them to contribute to the development and maintenance of effective organisations. The course presents a set of behavioural science concepts, diagnostic approaches, tools and techniques for improving organisational effectiveness and individual well-being, together with the values that underlie them. The recent growth in applications of organisational development in a variety of industries and sectors including hospitals, government agencies, schools and NGOs is reviewed. In response to global and local challenges, particularly those pertaining to the dynamic and complex nature of health care, this course also focuses on HIV/Aids policy and strategy and explores how these could contribute to organisational effectiveness and sustainability.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
