<b>NQF Level</b>	09
<b>Contact time</b>	Twenty four hours
<b>Language of tuition</b>	Module is presented in English
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 2

### Module content

This module is designed to enable students to analyse business problems, derive appropriate solutions, and communicate them effectively. There are two parts to it:

Part A deals with the written analysis of business cases. Through classroom instruction and individual feedback, students learn to analyse a business case, generate and review solutions, and prepare a clear, logical written summary of their analysis. The skills learnt include the cognitive skills of analysing, evaluating and synthesising complex material, and the communication skills of presenting findings in oral and written English.

Part B applies the same skills to the analysis and solution of an actual business situation. Students are required to conduct research into a problem posed in a company. They analyse the problem, conduct the appropriate research in the industry, apply the models and techniques covered in their MBA core courses, and prepare a consulting report for presentation to management and faculty.

### Regulations and rules

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these

regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.

**University of Pretoria Programme Qualification Mix (PQM) verification project**

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
