Module content

This module is intended for students who are interested in the role and application of strategic management in the private equity industry. The module will examine the range of strategic choices that need to be made by the private equity fund manager at each of the stages in the private equity process (pre-investment, investment, post-investment venture management and exit). The underlying question that the module seeks to address is: What strategies are required for the private equity fund manager to produce superior returns on investment, to meet investor expectations and to build wealth for the fund manager? The setting for the module is the private equity industry on a global basis, including both developed and emerging markets, with an orientation toward the local South African market.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
