Module content

This elective on the development of entrepreneurship from the inside-out focuses on three main elements. First, entrepreneurs are faced with a myriad of challenges, including persuading others by displaying their passion, as well as failure, making the role of personal emotion and its regulation during the entrepreneurial journey an important foundational theme. Second, we expand the role of emotion by exploring the cognitive processes of entrepreneurial action through experiential peer coaching activities. Here, students will be challenged to develop their cognitive resources such as adaptability and learning skills related to entrepreneurial action. Lastly, the behavioural dimensions are simplified into intra- and inter-personal meta-skills that individuals need to build the agility, resilience, and social networks essential for entrepreneurial sustainability and success.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
