### Module content

This elective focuses broadly on developing general management best practices for the Chinese business environment. It thus addresses broader issues and competencies relevant to understanding business in China. Apart from basic business acumen, this includes a cultural awareness and political savvy that allows managers to navigate their way through complex issues successfully. The seamless transition between politics, policy and business in china distinguishes it from the Western models of doing business and requires an alternative mind-set.

### **University of Pretoria Programme Qualification Mix (PQM) verification project**

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
