Module content

This module is about international business and the strategies of MNEs. This module is from the perspective of the MNE and should not be confused with economics or country competitiveness. Globalisation is not an option for any business; it is a strategic imperative. The same is true for countries, which cannot grow rapidly without access to global capital and skills. The current global economic crisis has highlighted the interconnectedness of businesses (local and international) and requires an understanding and appreciation of global business. This module aims to provide students with the skills necessary to develop global business strategies and meet the challenges entailed.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
