Module content

This module examines debates on gender with an emphasis on the historical and social context and forces that have given shape to the character and form of gender inequalities and stratification on the African continent. The module is aimed at developing a critical perspective on the position and status of women in Africa, and to introduce students to a wide-ranging set of authors – many of whom are writing from the continent – and provocative debates about the contested nature of gender emancipation and/or empowerment and its imbrications with broader social questions.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-

Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
