Globalisation and health 812 (OHB 812)

Qualification	Postgraduate
Faculty	Faculty of Veterinary Science
Module credits	15.00
NQF Level	09
Programmes	MSc (Veterinary Tropical Diseases) <i>Global One Health (Coursework)</i>
Prerequisites	No prerequisites.
Language of tuition	Module is presented in English
Department	Veterinary Tropical Diseases
Period of presentation	Quarter 2

Module content

The module is organised in 3 learning blocks including an assessment at the end of the 3rd week. In the first block 'Introduction to the globalisation and health nexus', students will be familiarised with practical and theoretical debates about processes of globalisation, the global political economy, power and how these processes impact on health and people's access to health services in very different settings. In the second block 'Global health governance and its paradigms' we examine in detail the respective approaches, actors and their interrelations that are most prominent in global health policy and cooperation. These approaches (paradigms) include trade; security, economic development; public health; humanitarian aid and poverty reduction; human rights and equity; planetary boundaries and climate change. In the second and third block 'Persistent problems, new challenges' we will focus on specific case studies such as, commercial determinants of NCD's, health workforce migration; the adaptation in communities to innovation and the introduction of modern diagnostics; urban health and environmental pollution; different perspective on sexual and reproductive health rights. Deconstructing the different paradigms, learning from the different case-studies will deepen the understanding of the globalisation and health nexus, including pathways, the governance and actions to overcome/tackle them. The role of (global) civil society and local actors in reducing global health equity will also be discussed.

Regulations and rules

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the

responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
