

University of Pretoria Yearbook 2023

Psychometrics 804 (PSY 804)

Qualification	Postgraduate
Faculty	Faculty of Humanities
Module credits	10.00
NQF Level	09
Programmes	MA (Research Psychology) (Coursework)
Prerequisites	DS (Research Psychology)
Contact time	1 lecture per week
Language of tuition	Module is presented in English
Department	Psychology
Period of presentation	Year

Module content

This module will demonstrate the process of test development from the perspective of Classical Test Theory (CTT) and Item Response Theory (IRT). Students are introduced to measurement theory, which includes an overview of measurement philosophy, true score theory, reliability, validity, item selection and use of statistical software. The specific IRT model constitutes the Rasch model allowing inspection of item fit, multidimensionality, bias, and related topics. Students are introduced to Winsteps and related software to enable them to do item calibration and IRT analysis. A brief introduction to how multidimensionality of tests can be assessed with Structural Equation Modeling (SEM) will also be included.

Regulations and rules

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
