*Requires departmental selection

This module offers occupational related preparation by familiarising students with art institutions and the art industry; and by providing skills in the promotional aspects of their personal art practice. Students will conduct site visits and research, reflect and report on the local art industry, its institutions and communities as codified practices. Opportunities will be provided for students to evaluate and investigate a specific facet of the local arts and culture environment through conducting interviews and contextual research. Students will be introduced to ethical matters in the discipline and will be orientated towards a community art engagement. Further, the module provides guidance on preparing self-promotional documents and opportunities to enhance social and networking skills.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
