This module entails an overview of the research process in ancient culture studies, especially the identification of a research problem, formulating a research question, proposing a suitable hypothesis and applying suitable research strategies through the discussion of relevant themes on the ancient world. Students are then guided towards independent research on themes of their choice relating to departmental research interests by applying the knowledge and skills gained throughout the entire course of ancient culture studies.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
