

University of Pretoria Yearbook 2024

Engineering statistics 220 (BES 220)

Qualification	Undergraduate
Faculty	Faculty of Engineering, Built Environment and Information Technology
Module credits	8.00
NQF Level	06
Programmes	BEng (Chemical Engineering) 4-year programme
	BEng (Chemical Engineering) 5-year programme
	BEng (Civil Engineering) 4-year programme
	BEng (Civil Engineering) 5-year programme
	BEng (Computer Engineering) 4-year programme
	BEng (Computer Engineering) 5-year programme
	BEng (Electrical Engineering) 4-year programme
	BEng (Electrical Engineering) 5-year programme
	BEng (Electronic Engineering) 4-year programme
	BEng (Electronic Engineering) 5-year programme
	BEng (Industrial Engineering) 4-year programme
	BEng (Industrial Engineering) 5-year programme
	BEng (Mechanical Engineering) 4-year programme
	BEng (Mechanical Engineering) 5-year programme
	BEng (Metallurgical Engineering) 4-year programme
	BEng (Metallurgical Engineering) 5-year programme
	BEng (Mining Engineering) 4-year programme
	BEng (Mining Engineering) 5-year programme
Prerequisites	WTW 158 GS, WTW 164 GS. Admission to relevant programme.
Contact time	3 lectures per week
Language of tuition	Module is presented in English
Department	Industrial and Systems Engineering
Period of presentati	ion Semester 2

Module content

Engineering systems are often subjected to variation, uncertainty and incomplete information. Mathematical statistics provides the basis for effectively handling and quantifying the effect of these factors. This module provides an introduction to the concepts of mathematical statistics and will include the following syllabus themes: data analysis, probability theory, stochastic modelling, statistical inference and regression analysis.

General Academic Regulations and Student Rules

The General Academic Regulations (G Regulations) and General Student Rules apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

Regulations, degree requirements and information

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
