Module content

This elective introduces a new social and economic system where GDP and economic growth is not the measure of value. It looks to the business model that thrives in this new world – the social enterprise, which blends the competing tensions of profit and purpose. Students will explore the growth of social enterprises which employ more people in the UK than the ICT, financial and services industry. Students will also be introduced the growing field of Impact Investing, where financiers are structuring deals on intangible social returns.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are

legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
