Faculty [Faculty of Engineering, Built Environment and Information Technology](#)

Module credits 16.00

NQF Level 07

Programmes [BEng in Industrial Engineering 4-year programme](#)

[BEng in Industrial Engineering 5-year programme](#)

Prerequisites No prerequisites.

Contact time 4 lectures per week, 2 discussion classes per week

Language of tuition Module is presented in English

Department Industrial and Systems Engineering

Period of presentation Semester 1

Module content

This course introduces students to an integrated supply chain and exposes them to business logistics and strategic supply chain planning and management decisions. It also addresses key activities, business processes and decisions related to demand-side supply chain management. The main topics covered in this module are: Overview of supply chain management; Global dimensions of supply chains; supply chain strategy overview; Aligning and integrating the supply chain; Supply chain performance measurement; Supply chain sustainability; Supply chain reference models; Demand management; Order management and customer service; Distribution and network design; Logistics in supply chains; Transportation management; Warehousing operations and facility layout; and Material handling systems and equipment.

General Academic Regulations and Student Rules

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

Regulations, degree requirements and information

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
