Research methodology 751 (SOC 751)

Qualification Postgraduate

Faculty [Faculty of Humanities](#)

Module credits 20.00

NQF Level 08

Programmes [BSocSciHons specialising in Gender Studies](#)

[BSocSciHons specialising in Industrial Sociology and Labour Studies](#)

[BSocSciHons specialising in Sociology](#)

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Sociology

Period of presentation Semester 1

Module content

The module focuses on debates about, as well as the practice of, research. The idea of science, the role of theoretical conceptualisations, and the epistemological assumptions underpinning research are introduced with reference to competing paradigms, including positivism, interpretivism and realism. With regard to research practice, general principles of planning such as identifying a topic, delineating a problem area, selecting sites, sampling participants and addressing ethical questions are considered. Thereafter the use of methods through which data can be collected and/or constructed are introduced and ways in which evidence can be interpreted and analysed are discussed.

General Academic Regulations and Student Rules

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

Regulations, degree requirements and information

The faculty regulations, information on and requirements for the degrees published here are subject to change

and may be amended after the publication of this information.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
