

# University of Pretoria Yearbook 2025

## Numerical methods 263 (WTW 263)

<b>Qualification</b>	Undergraduate
<b>Faculty</b>	Faculty of Natural and Agricultural Sciences
<b>Module credits</b>	8.00
<b>NQF Level</b>	06
<b>Programmes</b>	BEng in Chemical Engineering 4-year programme BEng in Chemical Engineering 5-year programme BEng in Civil Engineering 4-year programme BEng in Civil Engineering 5-year programme BEng in Computer Engineering 4-year programme BEng in Computer Engineering 5-year programme BEng in Electrical Engineering 4-year programme BEng in Electrical Engineering 5-year programme BEng in Electronic Engineering 4-year programme BEng in Electronic Engineering 5-year programme BEng in Industrial Engineering 4-year programme BEng in Industrial Engineering 5-year programme BEng in Mechanical Engineering 4-year programme BEng in Mechanical Engineering 5-year programme BEng in Metallurgical Engineering 4-year programme BEng in Metallurgical Engineering 5-year programme BEng in Mining Engineering 4-year programme BEng in Mining Engineering 5-year programme BSc in Physics BSc in Physics 4-year programme
<b>Service modules</b>	Faculty of Engineering, Built Environment and Information Technology
<b>Prerequisites</b>	WTW 164
<b>Contact time</b>	2 lectures per week, 1 tutorial per week
<b>Language of tuition</b>	Module is presented in English

---

**Department** Mathematics and Applied Mathematics

**Period of presentation** Semester 2

**Module content**

Numerical integration. Numerical methods to approximate the solution of non-linear equations, systems of equations (linear and non-linear), differential equations and systems of differential equations. Direct methods to solve linear systems of equations.

---

**General Academic Regulations and Student Rules**

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

**Regulations, degree requirements and information**

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

**University of Pretoria Programme Qualification Mix (PQM) verification project**

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
